Siddharth (Sidd) Shah

Customer and Partner Success Leader · Former Product Manager

Long Beach, CA · 310-874-3117 · hello@siddharthshah.me · siddharthshah.me · linkedin.com/in/iamsiddharthshah

I build products and the partnerships that make them pay.

Partner success leader and former product manager, 18 years across customer success, partnerships and product. Kept 10 of 12 enterprise accounts, launched 10 (one a Fortune 50) and owned an SDK that added $15M a year. I grow accounts by finding the product or integration fix behind a revenue problem, then building it or winning the case for it.

Experience

MomentScience · Head of Partner Success — May 2025 – Present

A 15-person platform that pays enterprise partners a revenue share on offers shown after checkout. I report to the CEO, own partner retention and revenue, and manage one solutions engineer.

- **10 enterprise launches** since May 2025, one a Fortune 50 telecom through security, legal and accessibility review.
- **10 of 12 partners retained**; every partner I launched is still live, and both losses were inherited.
- **5× partner revenue in nine months** at a parking operator and **nearly 4× in four months** at a convenience chain: one by reproducing the bug suppressing it, the other by winning the case to move our offers higher.
- **12 of 18 enterprise deals closed** with me on the technical side: demos, security reviews, integration scoping.
- Built the account system we run every partner on: launch playbook and security-answer bank, weekly MBR/QBR trackers per key account, and a Slack bot that flags revenue drops and ghost campaigns.

Upward Ventures · Founder — Oct 2024 – Present

- Consulting and agent-built tools, plus os (github.com/bigsidd/os): my product judgment written as agent rules.

InMarket · Senior Product Manager — Sep 2020 – Oct 2024

A $100M+ location-data company selling advertising and measurement products to brands.

- **$15M more revenue a year, 24% more profit** on the SDK I owned (~70% of revenue) with live location data.
- **$8M new revenue, 40% more enterprise clients** by leading product on the NinthDecimal merger six months early.
- Shipped monitoring and troubleshooting dashboards that cut incidents 25% and resolution time 50%.

NinthDecimal · Product Manager · acquired by InMarket — Sep 2019 – Aug 2020

- **95% of Kiip's clients retained** through the acquisition, on the account-migration playbook I wrote and ran.
- **$1.8M enterprise deal closed** by shipping the buyer's features early; measurement product reached 60% margins.

Kiip · Customer Success Manager, then Product Manager · acquired by NinthDecimal — Aug 2015 – Sep 2019

A mobile rewards platform: brands funded rewards delivered inside partner apps and games.

- **$5.2M+ in revenue** from the JavaScript web integration and private marketplace for brand buyers I built.
- **50M+ users and 500+ brands** on the mobile SDK and brand tools I owned as Kiip's second PM.

Movoto · Customer Success Manager and Licensed Realtor — Mar 2014 – Jul 2015

- **15% over revenue targets** across about 400 agent accounts, and rebuilt agent onboarding.

IHG, Holiday Inn Fresno Downtown · General Manager — Jan 2011 – Feb 2014

- **40% lower staff turnover** running a 197-room, $3.5M full-service hotel: the full P&L and 75 staff.

Skills

- **Customer and partner success:** onboarding playbooks, MBR/QBR cadence, health alerts, expansion cases
- **Solutions engineering:** JavaScript and mobile SDKs, REST APIs, webhooks, Google Tag Manager and Ad Manager
- **Product management:** requirements, roadmaps, business cases, A/B tests, SDK and API product ownership
- **Data and diagnostics:** SQL on ClickHouse, revenue and attribution reporting, root-cause debugging
- **Trust and AI tooling:** security reviews (CAIQ, SIG), GDPR, WCAG, MSAs; Claude Code agents, Slack alert bot

Education and Honors

UC Berkeley, B.A. Mass Communications, 2008 · Product School FPMC and DAC, 2019 · 40 Under 40, 2013
